Last updated: August 2026

— Education

PhD in Systems Neuroscience · Peking University	2022-Present
- Adviser: Dr. Pinglei Bao	
Bachelor of Psychology · Peking University	2018-2022
Bachelor of Economics · Peking University	2020-2022

— Research Experience

PhD Student · Pinglei Bao Lab, Peking University	2021-Present
Beijing, China	
- Built and optimized a chronic macaque electrophysiology platform using Neuropixels, enabling large-scale, repeated recordings from high-level visual cortex; developed the Triple-N natural-scene neural dataset. - Led the Anagram and DIVE projects to study object interpretation and dynamic visual coding across the primate visual pathways, combining electrophysiology, fMRI-guided targeting, computational modeling, and population analyses.	

— Selected Publication

1. **Triple-N dataset: large-scale fMRI-guided dense recordings of nonhuman primate neural responses to natural scenes** · Nature Neuroscience, 2026

— Selected Presentations

Oral		
Triple-N Dataset: Non-human Primate Neural Responses to Natural Scenes · Vision Sciences Society Annual Meeting (VSS 2025)		2025
Oral presentation; abstract published in Journal of Vision, 25, 2859.		
Cross-category encoding dimensions in the primate ventral visual pathway: a shared low-dimensional space and category-specific high-dimensional spaces · 2024 International Joint Forum on Psychology and Cognitive Sciences, Peking University		2024
Oral presentation; Excellent Presentation Award.		Beijing, China
Dynamical Neuronal Encoding for Visual Information in the Primate Inferotemporal Cortex · China Vision Science Conference (CVSC 2024)		2024
		Guangzhou, China
Posters		
Triple-N Dataset: Non-human Primate Neural Responses to Natural Scenes · Academic Annual Conference of the Professional Committee of General Psychology and Experimental Psychology, Chinese Psychological Society		2025
Excellent Poster Award.		Sichuan, China
Dynamic Encoding Axis in the Primate Inferotemporal Cortex · Chinese Neuroscience Society Annual Meeting (CNS 2025)		2025
		Xi'an, China
Dynamical Neuronal Encoding for Visual Information in the Primate Inferotemporal Cortex · Society for Neuroscience Annual Meeting (SfN 2024)		2024
		Chicago, USA

— Honors & Awards

2025	PKU Outstanding Research Award · Peking University
2025	Industrial Bank Scholarship · Peking University
2022	PKU Presidential Scholarship · Peking University
2022	Outstanding Graduate of Peking University · Peking University
2021	Merit Student of Peking University · Peking University
2021	Fenjiu Group Public Welfare Scholarship · Peking University
2020	First-Class Undergraduate Academic Scholarship · School of Psychological and Cognitive Sciences, Peking University
2020	Third-Class Scholarship · Peking University
2020	Peking University Social Work Award · Peking University

— Teaching Experience

Teaching Assistant · From Data to Models · Peking University	Fall 2022
- Led tutorial sessions and contributed to the preparation of exercises, examination materials, and grading. - Collected and developed teaching materials and delivered 1-2 substitute lectures.	
Teaching Assistant · Research Methods in Psychology: MATLAB and Psychtoolbox · Peking University	Spring 2022
- Led tutorial sessions and office-hour Q&A on psychological research methods using MATLAB and Psychtoolbox. - Contributed to assignment and examination design and grading.	

— Leadership & Service

Vice President, Student Union · School of Psychological and Cognitive Sciences, Peking University	2020-2021
- Oversaw publicity and visual communications for major student activities, including the New Year Gala and Psychology Culture Festival, and contributed to poster design, merchandise design and production, student orientation, and graduation events.
